NRC TO MEET WITH VIRGINIA POWER OFFICIALS TO DISCUSS SAFETY PERFORMANCE AT SURRY NUCLEAR POWER PLANT

The U.S. Nuclear Regulatory Commission staff will meet with Virginia Power officials on Thursday, June 28, to discuss the results of NRC's annual assessment of safety performance at the Surry nuclear power plant.

The meeting will be held at 10:00 a.m. in the Surry Nuclear Information Center Auditorium at the plant site near Surry, Virginia. The public is invited to observe the meeting. NRC officials will be available after the meeting to answer questions. The NRC will hold a second meeting with state and local government officials after the first meeting. That second meeting is also open to the public.

A letter sent from NRC Region II to Virginia Power, which addresses plant safety performance during the previous year and forms the basis of the meeting discussion, is available from the Region II Office of Public Affairs or on the NRC web site at www.nrc.gov/OPA/ppr. Current information for the plant is available at www.nrc.gov/NRR/OVERSIGHT/ASSESS/SUR1/sur1_chart.html and www.nrc.gov/NRR/OVERSIGHT/ASSESS/SUR2/sur2_chart.html.
