NRC TO MEET WITH OPPD TO DISCUSS SAFETY PERFORMANCE AT FORT CALHOUN STATION

The U.S. Nuclear Regulatory Commission staff will meet with officials of Omaha Public Power District on Wednesday, June 20, to discuss the results of NRC's annual assessment of safety performance at Fort Calhoun Station, a nuclear power plant near Fort Calhoun, Nebraska.

The meeting will be held at 1:30 p.m. in the Training Center auditorium at Fort Calhoun Station. The public is invited to observe the meeting. NRC officials will be available after the meeting to answer questions.

A letter sent from NRC Region IV to OPPD, which addresses plant safety performance during the previous year and forms the basis of the meeting discussion, is available from the Region IV Office of Public Affairs or on the NRC web site at: <http://www.nrc.gov/OPA/ppr/>. Current safety performance information for Fort Calhoun Station is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/FCS/fcs_chart.html.
