## **NRC TO MEET WITH NUCLEAR MANAGEMENT COMPANY TO DISCUSS SAFETY PERFORMANCE AT THE KEWAUNEE NUCLEAR PLANT**

The Nuclear Regulatory Commission will meet with Nuclear Management Company officials July 10 to discuss the NRC's annual assessment of safety performance at the Kewaunee Nuclear Plant in Kewaunee, Wisconsin.

The meeting will begin at 1 p.m. CDT and will be held at the Carlton Town Hall, two miles north and two miles west of the plant at the intersection of County Highway G and Townhall Road. The public is invited to observe the session. NRC officials will be available afterwards to answer questions.

The annual assessment, referred to as the End-of-Cycle assessment, evaluates safety performance at the Kewaunee plant from April 2000 through March 2001, and informs plant officials of the NRC's plans for future inspections at the facility.

The Kewaunee assessment letter and inspection report are available at <http://www.nrc.gov/OPA/ppr> or from the Region III Public Affairs Office. Current performance information for the plant is available at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>.
