NRC TO MEET WITH EXELON GENERATION COMPANY TO DISCUSS SAFETY PERFORMANCE AT THE LASALLE NUCLEAR PLANT

The Nuclear Regulatory Commission will meet with Exelon Generation Company officials July 11 to discuss the NRC's annual assessment of safety performance at the LaSalle County Station near Seneca, Illinois.

The meeting will begin at 9:30 a.m. CDT and will be held at the Brookfield Township Hall, 2099 E. 27th Road near Seneca, Illinois.

The annual assessment, referred to as the End-of-Cycle assessment, evaluates safety performance at the LaSalle plant from April 2000 through March 2001, and informs plant officials of the NRC's plans for future inspections at the facility.

The LaSalle assessment letter and inspection report are available at <http://www.nrc.gov/OPA/ppr> or from the Region III Public Affairs Office. Current performance information for the plant is available at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>.
