September 19, 2006

NRC OFFERS NEW SERVICE FOR E-MAIL NOTIFICATION

In an effort to expand communications with the public, the Nuclear Regulatory Commission has initiated a free automated "list serve" program to provide information and documents when they are issued. Those who wish to subscribe should go to the SUBSCRIBE link on the NRC website: <http://www.nrc.gov>.

Interested members of the public may subscribe to electronic notices of the latest news releases, speeches by NRC officials, public meetings on the Indian Point Nuclear Power Plant in New York, generic communications from the NRC to specific classes of licensees such as power reactors, and notices on meetings, upgrades and issues concerning NRC's Agencywide Document Access and Management System (ADAMS). E-mail notifications are sent to subscribers when the information is posted to NRC's web site.

Other information may be available through this service in the future as part of the agency's continuing efforts to better serve the public.
