TELEPHONE BRIDGE LINE ESTABLISHED FOR PUBLIC MEETING BETWEEN NRC AND FARLEY NUCLEAR POWER PLANT

EDITORS/NEWS EDITORS

Nuclear Regulatory Commission officials have established a telephone bridge line for news media representatives or interested citizens to call in and listen to a public meeting between the NRC and Farley nuclear power plant officials on September 20 at 5:30 p.m. (CDT).

The NRC will conduct a public meeting with Farley officials in the County Commissioners Chambers on the Third Floor of the Houston County Administration Building at 462 Oats Street at that time. (See News Release II-07-045 dated Sept. 17)

Ten lines are available for this purpose. Media representatives from outside the Dothan area will be given priority.

NRC officials will discuss with Farley officials the preliminary results of a five-member inspection team's review of component cooling water system breaker failures.

Please call one of the above CONTACT numbers if you wish to participate. You will be given a call number and a pass code at that time.
